

# HILLHAVEN

CONVALESCENT CENTER

March 24, 1977

To Whom It May Concern:

It has been a great pleasure to work with Mrs. Doris Holmquist since she became the Director of Nursing at Hillhaven Convalescent Center.

Mrs. Holmquist was hired by our company in January of 1977, at which time the quality of care rendered to our patients and the operation of the nursing department improved dramatically. Mrs. Holmquist brought many new and innovative ideas to our facility which contributed greatly to the performance of our nursing home.

I have found Mrs. Holmquist to be a very interesting and attractive person to work with, very personable and yet assertive when need be. She is able to combine sound nursing principles with an interest in administrative detail - both prerequisites for a successful Director of Nursing.

I feel that Mrs. Doris Holmquist would make a tremendous Director of Nursing in any type health care facility at which she might apply.

Sincerely,

  
John E. Schneider  
Administrator
