Dear Dick-

Re our phone call last night, I am enclosing information as per your request.

Leonard Tadlock and I paced the perimeter of the claim and 6 stakes were set. The location stake is always laying on the ground whenever I come up there with the location can in a pile of rocks underneath. The original location notice copy "yellow paper" is enclosed.

A guy by the name of ~~Fx~~ Styles promised to install the necessary post, etc. when I left there in June but have not heard from him. Result-I could not trust him on any deal.

The new location system should be finished by Sept. 1st but am sure Barton will extend that date for you if necessary.

And Doc states that he will operate on this here bum ankle any time. Will wait until you get thru the job for me.

Kind regards,

Sincerely,

Phone at any time you wish, COLLECT 714 - 364 - 2209
