If the total of 20 Liaison Officers is more or less accurate, maybe the 14 in the photo excludes anyone that left for China Sep '44

"It Happened In China" says Charles Culpepper arrived two weeks before WWII ended, so photo of 14 is dated on or after early Aug '45

Maybe only Crapuchettes and Zimmer are missing in photo; Crapuchettes was deceased and Zimmer was making funeral arrangements?

Torrey was injured in an auto accident in July 1945, and was probably hospitalized when the photo was taken

Crapuchettes died in an auto accident September 1945
