Dear Louis Brown

Many thanks for your kind letter of April 24th.

I have good news for you. Mr. Culpepper Hongkong, wrote April 21st that he saw Mr. & Mrs. Seufert as they passed through. They did not know Paul had been arrested until Sunday after he was taken on Friday night. No word has come from H'ao since they left there. I am so glad the Seuferts are out. It really is hard lines on Paul as his relatives have been very critical because he did not leave earlier. The Reinbuchs are expected any time in Sweden on their way to Hongkong.

The Five Anti-Vice Campaign in China is turning the business world up side down. Managers and sub-managers and many others are having an awful time. And the corruption in the Red government! It really is tragic the way things are going in good old China.

I wish you could read Swedish. I would like you to criticize a manuscript.

on Communism and Christianity in China.
I have been working hard the last three
months getting it ready. It was sent to the pub-
lisher yesterday. Now I sit back and
wait for the verdict - wastepaper basket
or book around Christmas.
We have just welcomed the Spring here

in Sweden. It's a great time to live!

Hellen joins me in warmest re-
gards to you and everybody who knows
us.

P.S. Welcome to Sweden if you want to our home if you
feel the call of the North. In case we visit England
we will be very glad to see you. Q
